Patient Report

Procedure: Gastroscopy

Procedure Date: 28 Apr 2024 (14:07 - 15:07)

Procedure Completed: No

Medication: Continue medication. Omeprazole 20mg Oral was prescribed.

Results:

- You have had little bits taken out of you called biopsies, these have been taken to see if you have a bug in your tummy known as helicobacter pylori, which can make you feel poorly. The results will be given to your GP in 2-3 working days.
- One or more polyps have been removed today. The doctor who requested this test will receive the results and will arrange for these results to be communicated to you, either by writing to you and your GP. or alternatively by seeing you in a clinic or telephone clinic.
- During your test the endoscopist reported the following findings: Dummy data for endoscopist reported.

Follow-Up:

Clinical: _____

Date & Time of appointment: _____ / _____

- ☐ No further followup or procedure required
- ☐ Follow up to follow in the post
- ☐ Discharge to GP

If you have any questions please ask the nursing staff who will be happy to explain anything you are unclear about. If you have any further concerns please phone 01700 200000
